

January 2019 Newsletter

Charter #2786

As a new segment in the Ute RC newsletter it was suggested that we interview members of our club, similar to what the AMA does in Model Aviation. Who would you like to know more about? What questions would you like to see in this segment? To get the ball rolling I'll interview myself starting with the questions in the AMA magazine with a few others sprinkled in.

Member Profile: James Baer

How did you get involved in Model Aviation?

James B: I've enjoyed driving RC cars and boats most of my life. When I was younger my Dad and I would enjoy driving or floating them anytime we could. I got interested in model planes just after I turned 40 and realized it was something I wanted to do and I wasn't getting any younger.

How has model aviation impacted your life and/or career?

James B: When people find out that I'm into flying/crashing/fixing/building model planes they know I can work with tools, glue, etc. It's helped me get a job programming and repairing manufacturing equipment.

What other hobbies do you have?

James B: I have what I call my circle of hobbies that I cycle through. I enjoy tinkering with computers, photography, wood working, firearms, RC cars, RC Boats, 3d printing, fishing (fly or bait), camping, boating, traveling, and driving my old Mazda Miata.

Who or what has influenced you the most in the hobby or life?

James B: My Father. When I was a young boy he gave me the love of tinkering with things, including go-carts, RC boats and cars. He always supported me when I made the leap to RC planes. Sadly he only saw me fly once before he passed away.

What is your favorite aspect of model aviation?

James B: It would be hard to choose my favorite area of the hobby. I enjoy building planes, there is something that tickles my creativity when I build and rebuild. I enjoy the social aspect when I fly with the club and talk planes and such with the members and guests in between flights. If I was forced to choose, it would have to be watching my plane fly through the sky - for the life of a battery all of my focus is on my plane. Bills, work, and other stresses of life don't matter. For a moment there is only me and my model. That brings peace to my mind and body.

Regular Club Meetings and Events

Participate in our regular club meetings, held on the second Thursday of the month (except for December), where you can show off your current projects, view presentations on many aspects of model aviation, & participate in the direction the club is headed. They are held at the Murray Heritage Senior Center (10 E 6150 South, One block West of State Street)

Meeting and Events Schedule:

April 11, 2019 – Club Meeting 7pm

April 13, 2019 – Egg Drop Contest at the Club field. 9am to noon

May 9, 2019 – Club meeting 7pm

May 11, 2019 – Float Fly at Lincoln beach on Utah lake (Time TBD)

June 13, 2019 – Club Meeting 7pm

June 15, 2019 - Float Fly #2 at Lincoln Beach on Utah Lake (Time TBD)
